

Larry and T.B.

H! I had to borrow paper again. Next period I think I find out what I made on the Geometry test. Cross your fingers (Twice!!) The thing that may make me or break me is that I may not have quoted my theorems to her majesty's satisfaction. I had the right idea but... How did you guys like looking at your Soph. 1 jr. Contest shows? Bill Wilson was stand^{ing} there telling me this and that about the show (his soph). The thing with our show (?) last night is you can't tell that everybody screwed up as bad as they did. I hope we don't march ~~too~~ long overtime today. I feel better but then I've been popping tough throat lozenges all 4th. I got some I'm gonna give ya. I got 2 kinds + mixed them as you'll probably know by the time you read this. How you feeling^g? Are we going to that dance tonight? I don't care. I'm gonna get real ^{well} good, so I get to go out, when I get home. The bell's gonna buzz...

Love,
T.B.
